ICSE 2018 BATCH (GIRLS)

ICSE 2018 BATCH (BOYS)

Our I.C.C. Programme is unique in itself as it ensures the best possible result depending on the basic potential of the student and his/her capability to work hard. Students admitted to our I.C.C. Programme can expect significant improvement in their performance in the final board examination.

Our I.C.C. Programme concentrates basically on tapping the basic potential of every individual student. A student will have the right mix of classes, problem solving and doubt removal sessions supplemented by test analysing sessions. These will give students the necessary feedback to develop examination temperament. What is required from the students, is total dedication and hard work during the programme.

The programme will not benefit those who just wish to get enrolled and wait for a miracle to happen.

On the basis of our comprehensive course coverage, years of teaching experience and the results we have produced in the past we confidently expect that even an average student who will sincerely follow the faculty, will come out with flying colours in the examination.

Commensurate with our sincere efforts to provide proper motivation and effective guidance to the students in their preparations, we solicit co-operation from the parents/guardians. We expect that they will help us by providing the right atmosphere and discipline for the students for their 'home study'. It has to be a joint endeavour of the parents/guardians and the students on one side and the institute on the other. We would like to stress that the supervision and encouragement given by the parents/guardians to the students, coupled with our systematic coaching methods are certain to success & help them achieve their goal.

To maintain our tradition of always providing the best to our students, we can assure you that with our dedication, perfect guidance and sincere efforts, we can no doubt help you to realise your cherished dream.
